

Dear Customer
Fusignano 01/10/2010

Object: Directive 2002/95/CE "RoHS" low voltage cables

Dear costumer

The directive in object points out that from 1st July 2006 market distributed equipments do not have to contain:

Lead

Mercury

Cadmium

Hexavalent Chromium

Polybrominated biphenyl (PBB)

Polybrominated diphenyl ether (PBDE)

RoHS directive is not a new directive so CE mark is not required, CE conformità statement or other certification are not requested.

Market distributed goods have to be in accordance to RoHS directive.

G.Ecol Cables S.r.l. assure that in compound for its low voltage cables does not intentionally add elements indicated in RoHS directive and that limit values of CEI 111-52 (IEX 11/54/CDV) are guaranteed since year 2000 production. Moreover G.Ecol Cables S.r.l. has got all statement of its raw material suppliers that testify to RoHS directive requirement.
